Clare State School’s

Responsible Behaviour Plan for Students
based on The Code of School Behaviour

1. Purpose
Clare State School is committed to providing a safe, respectful and disciplined learning environment for students and staff, where students have opportunities to engage in quality learning experiences and acquire values supportive of their lifelong wellbeing.

This Responsible Behaviour Plan for Students is designed to facilitate high standards of behaviour so that the learning and teaching in our school can be effective and students can participate positively within our school community.

2. Consultation and data review
Clare State School developed this plan in collaboration with our school community. Broad consultation with parents, staff and students was undertaken as part of our Quadrennial School Review process in 2018. A review of school data sets from 2016 and 2017 have informed the development of this plan.

This Plan has been endorsed by the Principal and the President of the P&C on behalf of the school community.

3. Learning and behaviour statement
All areas of Clare State School are learning and teaching environments. We consider behaviour management to be an opportunity for valuable social learning as well as a means of maximising the success of academic education programs.

Our Responsible Behaviour Plan outlines our system for facilitating positive behaviours, preventing problem behaviour and responding to unacceptable behaviours. It clearly outlines expectations for student behaviour and support strategies that are in place. This assists Clare State School to create and maintain a positive and productive learning and teaching environment, where all school community members have clear and consistent expectations and understandings of their role in the educational process.

Our school community has identified the following school rules to teach and promote our high standards of responsible behaviour.

- Be Safe
- Be Responsible
- Be Respectful
- Be a Learner

Our school rules have been agreed upon and endorsed by all staff and our school P&C. They are aligned with the values, principles and expected standards outlined in Department of Education and Training’s Code of School Behaviour.
Processes for facilitating standards of positive behaviour and responding to unacceptable behaviour

A range of proactive and reactive strategies are applied within the school. Some of these strategies are whole school strategies that are delivered for the benefit of all students within the school. Other more targeted strategies are applied, as required, to address specific behaviours or developmental stages within the school. For those students who haven’t responded to targeted proactive or preventative strategies, or whose choices are resulting in risky or dangerous behaviours, the school has in place a range of supportive programs that provide intensive, specific support either from internal or external sources.

Universal Behaviour Support (100% of Students)

Universal levels of support are provided to all students. At Clare State School we appreciate the importance of explicitly teaching students the behaviours we expect them to demonstrate at school. Communicating behavioural expectations is a form of universal behaviour support - a proactive strategy intended to shape, support and recognise appropriate behaviours in all students with a focus on preventing problem behaviours and providing a framework for responding to unacceptable behaviour.

Clare State School implements proactive strategies to reinforce the good choices made by students at school. These include:
- Implementation of social skilling program – *Positive Behaviour for Learning (PBL)*
- PBL awards on parade
- PBL Stickers
- Sticker Chart with Prize Box
- Student of the week awards on parade
- Student leadership opportunities
- Classroom reward systems

School-wide proactive and preventative processes and strategies to support student behaviours include:
- A balanced, relevant and engaging curriculum
- Quality learning and teaching practices
- Induction programs delivered to new students, staff and relief staff in Clare State School’s *Responsible Behaviour Plan for Students*
- Professional Development for staff around the following specific strategies of the *Essential Skills for Classroom Management (ESCM)* suite for Micro skills:
  1. Establishing Expectations
  2. Instruction Giving
  3. Waiting and Scanning
  4. Cueing with Parallel Acknowledgement
  5. Body Language Encouraging
  6. Descriptive Encouraging
  7. Selective Attending
  8. Redirecting to the Learning
  9. Giving a Choice
  10. Following Through
- Support for teachers in the process of Classroom Profiling - conducted by an accredited Essential Skills for Classroom Management (ESCM) profiler.

A set of behavioural expectations in specific settings has been collaboratively developed with members of the school community based on the *Positive Behaviour for Learning program*. These expectations are framed in terms of our school values and rules. The School-wide Expectations Teaching Matrix detailed below outlines our agreed rules and specific behavioural expectations in all school settings.

Reviewed February 2018
Specific policies have been developed to address:
- The Use of Personal Technology Devices at School (Appendix 1);
- Procedures for Preventing and Responding to Incidents of Bullying (Appendix 2); and
- Appropriate Use of Social Media (Appendix 3).

**Reinforcing expected school behaviour**
At Clare State School, communication of key messages about behaviour is backed up through reinforcement. This strategy provides students with feedback for engaging in expected school behaviour. A formal recognition and monitoring system has been developed. This reinforcement system is designed to increase the quantity and quality of positive interactions between students and staff. All staff members are trained to give consistent and appropriate acknowledgement and rewards.

Teachers implement planned and incidental strategies in the classroom/playground to teach effective work habits, to develop social skills and to build a good rapport with students. Minor breaches of behaviour are dealt with by the teacher as needed. Targeted behaviour support occurs where students consistently breach the school’s Responsible Behaviour Plan for Students.

**Pre-requisites:** negotiated class rules, quality curriculum, respectful school and class culture, trusting and supportive class environment.

**Responding to unacceptable behaviour**

**Re-directing low-level and infrequent problem behaviour:**
When a student exhibits low-level and infrequent problem behaviour, the first response of school staff members is to remind the student of expected school behaviour, then ask them to change their behaviour so that it aligns with our school’s expectations.

Our preferred way of re-directing low-level problem behaviour is to ask them to think of how they might be able to act more safely, more respectfully or more responsibly. This encourages students to reflect on their own behaviour, evaluate it against expected school behaviour, and plan how their behaviour could be modified so as to align with the expectations of our school community.

**Targeted behaviour support:**
When a student’s minor infringements continue to disrupt the class, or when minor infringements move to more serious breaches of the school’s plan, more extensive targeted support is put into place.

Teachers use One School to record all major student behaviours and ongoing minor behaviours to determine when a student needs more extensive support. If more extensive support is warranted, the teacher refers the student, with the supporting documentation, to the Behaviour Management Support Teacher and Principal.

In consultation with the class teacher, Principal and the parents, the Behaviour Management Support Teacher develops an Individual Behaviour Support Plan. This plan documents aims, support strategies, timing, personnel, review and assessment. Support through this plan could include a referral to the Guidance Officer for assessment and preliminary counselling and behavioural support as well as other external agencies and support mechanisms for teachers.

Parent involvement must continue through all management stages.

**Intensive behaviour support**

**5. Consequences for unacceptable behaviour**
Clare State School makes systematic efforts to prevent problem student behaviour by teaching and reinforcing expected behaviours on an ongoing basis. When unacceptable behaviour occurs, students experience predictable consequences. Our school seeks to ensure that responses to unacceptable behaviour are consistent and proportionate to the nature of the behaviour. One
School is used to record all major problem behaviour. The recording of three minor behaviours constitutes a major behaviour.

Minor and major behaviours
When responding to problem behaviour, the staff member first determines if the problem behaviour is major or minor, with the following agreed understanding:

- **Minor** problem behaviour is handled by staff members at the time it happens.
- **Major** problem behaviour is referred directly to the school Administration team.

Minor behaviours are those that:
- are minor breaches of the school rules;
- do not seriously harm others or cause you to suspect that the student may be harmed;
- do not violate the rights of others in any other serious way;
- are not part of a pattern of problem behaviours; and
- do not require involvement of specialist support staff or Administration.

**Minor** problem behaviours may result in the following consequences that are logically connected to the problem behaviour, such as:
- complete removal from an activity or event for a specified period of time;
- partial removal (time away);
- an individual meeting with the student;
- an apology;
- restitution; or
- detention for work completion.

Major behaviours are those that:
- significantly violate the rights of others;
- put others/self at risk of harm; and
- require the involvement of school Administration.

**Major** behaviours result in an immediate referral to Administration because of their seriousness. When major problem behaviour occurs, staff members calmly state the major problem behaviour to the student and remind them of the expected school behaviour. The staff member then reports the offence to Administration and completes a One School single student or multiple student incident report (Appendix 4).

Major problem behaviours may result in the following consequences:
- **Level One**: Time in office, removal from classroom, alternate lunchtime activities, loss of privilege, restitution, loss of break times, warning regarding future consequence for repeated offence, parent contact.
- **Level Two**: Parent contact, suspension from school; referral to Guidance Officer, referral to Intensive Behaviour Support Team; and/or
- **Level Three**: Students who engage in very serious problem behaviours such as major violent physical assault, or the use or supply of weapons or drugs can expect to be recommended for exclusion from school following an immediate period of suspension.
The following table outlines examples of minor and major problem behaviours:

| No play                                      | Possible One School entry made                                                       |
| Redo / fix the problem (untidy work, talking quietly, walking on concrete) | Withdrawal to supervised time out area                                                |
| Lunchtime practice (school and class routines, finishing school work) | Missing out on play / privileges / excursions                                        |
| Removal of inappropriate possessions (jewellery, toys, phone) | Written or verbal apology to those involved                                         |
Relate problem behaviours to expected school behaviours
When responding to problem behaviours, staff members ensure that students understand the relationship of the problem behaviour to expected school behaviour. One method that staff members might use to achieve this is to have students:

- articulate the relevant expected school behaviour;
- explain how their behaviour differs from expected school behaviour;
- describe the likely consequences if the problem behaviour continues; and
- identify what they will do to change their behaviour in line with expected school behaviour.

Should a problem behaviour be repeated by the student, the staff member may not repeat the discussion/explanation process but simply remind the student of the consequences of their problem behaviour.

Ensuring consistent responses to problem behaviour
At Clare State School, staff members authorised to issue consequences for minor problem behaviours are the teachers and teacher aides. The staff member authorised to issue consequences for major behaviours is the Leadership Team. Through training activities, we work to ensure consistent responses to problem behaviour across the school.

Students also receive training in how to respond appropriately when other students display problem behaviour, and the courteous way to respond when a staff member re-directs their behaviour or consequences are applied for any identified problem behaviour.

6. Emergency or critical incident responses
It is important that all staff have a consistent understanding of how to respond to emergency situations or critical incidents involving severe problem behaviour. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

An emergency situation or critical incident is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action.

Severe problem behaviour is defined as behaviour of such intensity, frequency, or duration that the physical safety of the student or others is likely to be placed in serious jeopardy.

Basic defusing strategies
Avoid escalating the problem behaviour: Avoid shouting, cornering the student, moving into the student’s space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language.

Maintain calmness, respect and detachment: Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally.

Approach the student in a non-threatening manner: Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates.

Follow through: If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students’ attention towards their usual work/activity. If the student continues with the problem behaviour then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour.

Debrief: Help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations.
Physical Intervention
Staff may make legitimate use of physical intervention if all non-physical interventions have been exhausted and a student is:
  - physically assaulting another student or staff member; or
  - posing an immediate danger to him/herself or to others.

Appropriate physical intervention may be used to ensure that Clare State School's duty of care to protect students and staff from foreseeable risks of injury is met. The use of physical intervention is only considered appropriate where the immediate safety of others is threatened and the strategy is used to prevent injury.

Physical intervention can involve coming between students, blocking a student's path, leading a student by the hand/arm, shepherding a student by placing a hand in the centre of the upper back, removing potentially dangerous objects and, in extreme situations, using more forceful restraint.

It is important that all staff understand:
  - physical intervention cannot be used as a form of punishment;
  - physical intervention must not be used when a less severe response can effectively resolve the situation; and
  - what the underlying function of the behaviour is.

Physical intervention is not to be used as a response to:
  - property destruction;
  - school disruption;
  - refusal to comply;
  - verbal threats; and
  - leaving a classroom or the school, unless student safety is clearly threatened.

Any physical intervention made must:
  - be reasonable in the particular circumstances;
  - be in proportion to the circumstances of the incident;
  - always be the minimum force needed to achieve the desired result; and
  - take into account the age, stature, disability, understanding and gender of the student.

Record keeping
Each instance involving the use of physical intervention must be formally documented. In all instance of physical intervention the following records must be completed:
  - Debriefing report (for student and staff) (Appendix 5);
  - Health and Safety incident record (My HR);
  - Physical intervention incident report (Appendix 6); and
  - Risk Assessment (One School)
7. Network of student support
Students at Clare State School are supported through positive reinforcement and a system of universal, targeted, and intensive behaviour support by:

- Parents
- Teachers
- Support Staff
- Administration Staff
- Guidance Officer
- Advisory Visiting Teachers
- Positive Learning Centre Staff
- Senior Guidance Officer
- School Adopt-A-Cop

External support is also available through the following government and community agencies:

- Disability Services Queensland
- Child and Youth Mental Health
- Queensland Health
- Department of Communities (Child Safety Services)
- Police
- Local Council
- Neighbourhood Centre

8. Consideration of individual circumstances
To ensure alignment with the Code of School Behaviour when applying consequences, the individual circumstances and actions of the student and the needs and rights of school community members are considered at all times.

Clare State School considers the individual circumstances of students when applying support and consequences by:

- promoting an environment which is responsive to the diverse needs of its students;
- establishing procedures for applying fair, equitable and non violent consequences for infringement of the code ranging from the least intrusive sanctions to the most stringent;
- recognising and taking into account students' age, gender, disability, cultural background, socioeconomic situation and their emotional state; and
- recognising the rights of all students to:
  - express opinions in an appropriate manner and at the appropriate time;
  - work and learn in a safe environment regardless of their age, gender, disability, cultural background or socio-economic situation, and
  - receive adjustments appropriate to their learning and/or impairment needs.

Appendix 1

The use of personal technology devices at school

This policy reflects the importance the school places on students displaying courtesy, consideration and respect for others whenever they are using personal technology devices.

Personal Technology Devices include, but are not limited to, games devices (such as Portable gaming devices, laptop computers, PDAs, cameras and/or voice recording devices (whether or not integrated with a mobile phone or MP3 player), mobile telephones, IPods® and devices of a similar nature.

Certain personal technology devices banned from school

Students must not bring valuable personal technology devices like cameras, digital video cameras or MP3 players to school as there is a risk of damage or theft. Such devices will be confiscated by school staff and may be collected at the end of the day from the school office. Breaches of this prohibition may result in discipline.

Confiscation

Permitted personal technology devices such as a mobile phone (with prior approval from Principal) used contrary to this policy on school premises will be confiscated by school staff. They will be made available for collection from the school office at the end of the school day unless required to be kept for purposes of disciplinary investigation, when it will only be returned in the presence of a parent.

Devices potentially containing evidence of criminal offences may be reported to the police. In such cases police may take possession of such devices for investigation purposes and students and parents will be advised to contact Queensland Police Service (QPS) directly.

Students who have a personal technology device confiscated more than once will not be permitted to have a personal technology device at school for at least one month, or longer if deemed necessary by the Principal.

Personal technology device etiquette

Bringing personal technology devices to school is not encouraged by the school because of the potential for theft and general distraction and/or disruption associated with them. However, if they are brought to school, they must be turned off and out of sight during assemblies or classes.

Recording voice and images

Every member of the school community should feel confident about participating fully and frankly in all aspects of school life without concern that their personal privacy is being invaded by them being recorded without their knowledge or consent.

We uphold the value of trust and the right to privacy at Clare State School. Students using personal technology devices to record inappropriate behaviours or incidents (such as vandalism, fighting, bullying, staged fighting or pranks etc) for the purpose of dissemination among the student body or outside the school, by any means (including distribution by phone or internet posting) builds a culture of distrust and disharmony.

Students must not record images anywhere that recording would not reasonably be considered appropriate (e.g. in change rooms, toilets or any other place where a reasonable person would expect to be afforded privacy). Recording of events in class is not permitted unless express consent is provided by the class teacher.

A student at school who uses a personal technology device to record private conversations, ordinary school activities (apart from social functions like graduation ceremonies) or violent, illegal

Reviewed February 2018
or embarrassing matter capable of bringing the school into public disrepute is considered to be in breach of this policy.

Even where consent is obtained for such recording, the school will not tolerate images or sound captured by personal technology devices on the school premises or elsewhere being disseminated to others, if it is done for the purpose of causing embarrassment to individuals or the school, for the purpose of bullying or harassment, including racial and sexual harassment, or where without such intent a reasonable person would conclude that such outcomes may have or will occur.

Students may be subject to discipline (including suspension and recommendation for exclusion) if they breach the policy by being involved in recording and/or disseminating material (through text messaging, display, internet uploading or other means) or are knowingly the subject of such a recording.

Students should note that the recording or dissemination of images that are considered indecent (such as nudity or sexual acts involving children) are against the law and if detected by the school will result in a referral to QPS.

Text communication
The sending of text messages that contain obscene language and/or threats of violence may amount to bullying and/or harassment or even stalking, and will subject the sender to discipline and possible referral to QPS. Students receiving such text messages at school should ensure they keep the message as evidence and bring the matter to the attention of the school office.

Assumption of cheating
Personal technology devices may not be taken into or used by students at exams or during class assessment unless expressly permitted by staff. Staff will assume students in possession of such devices during exams or assessments are cheating. Disciplinary action will be taken against any student who is caught using a personal technology device to cheat during exams or assessments.

Recording private conversations and the Invasion of Privacy Act 1971
It is important that all members of the school community understand that under the Invasion of Privacy Act 1971, ‘a person is guilty of an offence against this Act if the person uses a listening device to overhear, record, monitor or listen to a private conversation’. It is also an offence under this Act for a person who has overheard, recorded, monitored or listened to a conversation to which s/he is not a party to publish or communicate the substance or meaning of the conversation to others.

Students need to understand that some conversations are private and therefore to overhear, record, monitor or listen to such private conversations may be in breach of this Act, unless consent to the recording is appropriately obtained.

Special circumstances arrangement
Students who require the use of a personal technology device in circumstances that would contravene this policy (for example to assist with a medical condition or other disability or for a special project) should negotiate a special circumstances arrangement with the Principal.
Appendix 2

School policy for preventing and responding to incidents of bullying (including cyberbullying)

Purpose
Clare State School strives to create positive, predictable environments for all students at all times of the day. The disciplined and teaching environment that we are creating is essential to:

- achieving overall school improvement, including the effectiveness and efficiency of our student support procedures;
- raising achievement and attendance;
- promoting equality and diversity; and
- ensuring the safety and well-being of all members of the school community.

There is no place for bullying at Clare State School. Those who are bullied and those who bully are at risk for behavioural, emotional and academic problems. These outcomes are in direct contradiction to our school community's goals and efforts for supporting all students.

Bullying behaviours include: name-calling, taunting, mocking, making offensive comments, kicking, hitting, pushing, taking belongings, inappropriate text messaging, sending offensive or degrading images by phone or internet, producing offensive graffiti, gossiping, excluding people from groups and spreading hurtful and untruthful rumours.

Bullying may be related to:

- race, religion or culture;
- disability;
- appearance or health conditions;
- sexual orientation;
- sexist or sexual language;
- children acting as carers; or
- children in care.

At Clare State School there is agreement among students, staff and parents that bullying is an observable and measurable behaviour. When considering whether or not bullying has occurred, we will therefore avoid speculation on the intent of the behaviour, the power of individuals involved, or the frequency of its occurrence. Whether bullying behaviour is observed between students of equal or unequal power, whether it occurs once or several times, and whether or not the persons involved cite intimidation, revenge, or self-defence as a motive, the behaviour will be responded to in similar fashion, that is, as categorically unacceptable in the school community.

Rationale
Many bullying behaviours are peer-maintained through the actions of bystanders. That is, peers react to bullying in ways that may increase the likelihood of it occurring again in the future. Reactions include joining in, laughing, or simply standing and watching, rather than intervening to help the person being bullied. Whilst our school would never encourage students to place themselves at risk, our anti-bullying procedures involve teaching the entire school a set of safe and effective responses to all problem behaviour, including bullying, in such a way that those who bully are not socially reinforced for demonstrating it.

The anti-bullying procedures at Clare State School are an addition to our schoolwide positive behaviour support processes. This means that all students are being explicitly taught the expected school behaviours and receiving high levels of social acknowledgement for doing so. Adding lessons on bullying and how to prevent and respond to it is a subset of procedures that our students are already accustomed to.
Prevention

Attempting to address specific problem behaviours will not be successful if the general level of disruptive behaviour in all areas of our school is not kept to a low level. Therefore, our schoolwide universal behaviour support practices will be maintained at all times. This will ensure that:

- Our universal behaviour support processes will always remain the primary strategy for preventing problem behaviour, including preventing the subset of bullying behaviour;
- All students know the 4 school rules and have been taught the expected behaviours attached to each rule in all areas of the school.
- All students have been or are being taught the specific routines in the non-classroom areas, from exiting the classroom, conducting themselves in accordance with the school expectations in the playground and other areas, to re-entering their classrooms.
- All students are receiving high levels of positive reinforcement for demonstrating expected behaviours, including those associated with following our routines, from all staff in the non-classroom areas of the school.
- A high level of quality active supervision is a permanent staff routine in the non-classroom areas. This means that duty staff members are easily identifiable and are constantly moving, scanning and positively interacting as they move through the designated supervision sectors of the non-classroom areas.

The student curriculum modules of the anti-bullying process consist of lessons taught by all teachers in all classrooms to a schoolwide schedule of instruction. At all times simultaneous instruction is our goal, in order to maintain consistency of skill acquisition across the school.

An initial introductory lesson is delivered, which teaches the 3-step process to be used by all students when experiencing bullying behaviour either as a person being bullied, the person bullying or bystander.

The introductory lesson is followed by several shorter lessons, each of which focuses on one of the bullying behaviours that the school has identified and defined. These lessons include instruction on how to approach adults and also on what reactions and systemic responses they should expect from adults.

Research indicates that a common outcome of anti-bullying programming is an improvement in understanding of bullying but little change in the frequency or nature of actual bullying behaviour. One of the reasons cited for this outcome is the lack of Behavioural rehearsal in the programming. The anti-bullying process at Clare State School takes care to combine knowledge with practice in a process of active learning, so that students understand by ‘doing’ as much as by ‘knowing’.

Clare State School records inappropriate behaviour and uses behavioural data for decision-making. This data is entered into our database on a daily basis and can be recalled as summary reports at any time. This facility allows the school to track the effectiveness of its anti-bullying process, to make any necessary adjustments, and to identify specific bullying behaviours that may need to be revisited or revised in the instructional process.
Appendix 3

Appropriate use of social media
Clare State School embraces the amazing opportunities that technology and the internet provide to students for learning, being creative and socialising online. Use of online communication and social media sites and applications (apps) can provide positive social development experiences through an opportunity to develop friendships and shape identities.

When used safely, social media sites and apps such as Facebook, Twitter and Instagram can provide positive opportunities for social learning and development. However, inappropriate, or misguided use can lead to negative outcomes for the user and others.

Clare State School is committed to promoting the responsible and positive use of social media sites and apps.

No student of Clare State School will face disciplinary action for simply having an account on Facebook or other social media site.

As is set out in the school policy for preventing and responding to incidents of bullying (including cyberbullying) found at Appendix 2, it is unacceptable for students to bully, harass or victimise another person whether within Clare State School's grounds or while online. Inappropriate online behaviours can have a negative impact on student learning and the good order and management of Clare State School, whether those behaviours occur during or outside school hours.

This policy reflects the importance of students at Clare State School engaging in appropriate online behaviour.

Role of social media
The majority of young people use social media sites and apps on a daily basis for school work, entertainment and to keep in contact with friends. Unfortunately, some young people misuse social media technologies and engage in cyberbullying.

Social media by its nature will result in the disclosure and sharing of personal information. By signing up for a social media account, users are providing their personal information.

Students need to remember that the internet is a free space and many social media sites and apps, like Twitter, have limited restrictions placed upon allowable content and regulated procedures for the removal of concerning posts.

Social media sites and apps are designed to share online content widely and rapidly. Once students place information and/or pictures online, they have little to no control over how that content is used.

The internet reaches a global audience. Even if students think that comments or photos have been deleted, there can be archived records of the material that will continue to be searchable into the future.

Inappropriate online behaviour has the potential to embarrass and affect students, others and the school for years to come.
Appropriate use of social media

Students of Clare State School are expected to engage in the appropriate use of social media. Specific examples of appropriate use of social media sites and apps include:

- Ensuring that personal information, such as full name, address, phone number, school name and location or anyone else’s personal information, is not shared.
- Thinking about what they want to say or post, and how it could be interpreted by others, before putting it online. Remember, once content is posted online you lose control over it. Students should not post content online that they would be uncomfortable saying or showing to their parents’ face or shouting in a crowded room.
- Remembering that it can be difficult to work out whether messages typed on social media sites and apps are meant to be funny or sarcastic. Tone of voice and context is often lost which can lead to unintended consequences. If students think a message may be misinterpreted, they should be cautious and make the decision not to post it.
- Never provoking, or engaging with, another user who is displaying inappropriate or abusive behaviour. There is no need to respond to a cyberbully. Students should report cyberbullying concerns to a teacher and allow the teacher to record and deal with the online concern.

If inappropriate online behaviour impacts on the good order and management of Clare State School, the school may impose disciplinary consequences for that behaviour regardless of whether the behaviour occurs during or outside of school hours.

Disciplinary consequences could include suspension and/or exclusion. In serious cases of inappropriate online behaviour, the school may also make a report to the police for further investigation.

Clare State School will not become involved in concerns of cyberbullying or inappropriate online behaviour where the incident in question does not impact upon the good order and management of the school. For example; where cyberbullying occurs between a student of this school and a student of another school outside school hours. Such an incident will be a matter for parents and/or police to resolve.

Laws and consequences of inappropriate online behaviour and cyberbullying

Inappropriate online behaviour may in certain circumstances constitute a criminal offence. Both the Criminal Code Act 1995 (Cth) and the Criminal Code Act 1899 (Qld) contain relevant provisions applicable to cyberbullying.

The Commonwealth Criminal Code outlines a number of criminal offences concerning telecommunications services. The most relevant offence for cyberbullying is “using a carriage service to menace, harass or cause offence to another person”.

The Queensland Criminal Code contains several applicable sections for cyberbullying. Potential relevant criminal offences are:

- Unlawful stalking;
- Computer hacking and misuse;
- Possession of child exploitation material;
- Involving a child in making child exploitation material;
- Making child exploitation material;
- Distribution of child exploitation material; and
- Criminal defamation.

There are significant penalties for these offences.

Clare State School strives to create positive environments for all students at all times of the day, including while online. To help in achieving this goal, Clare State School expects its students to engage in positive online behaviours.
Appendix 5

Debriefing Report

Formal debriefing
Formal debriefing should be led by a staff member trained in the process who has not been involved in the event. The goals of debriefing are to:
- reverse or minimise the negative effects of physical intervention;
- prevent the future use of physical intervention; and/or
- address organisational problems and make appropriate changes.

For students who have language or communication difficulties the debriefing process will need to be modified to accommodate their specific receptive and expressive needs.

Debriefing should provide information on:
- who was involved;
- what happened;
- where it happened;
- why it happened; and
- what we learned.

The specific questions we want to answer through the debriefing process are:
- FACTS: what do we know happened?
- FEELINGS: how do you feel about the event that happened?
- PLANNING: what can/should we do next?

Questions for staff
- What were the first signs?
- What de-escalation techniques were used?
- What worked and what did not?
- What would you do differently next time?
- How can physical intervention be avoided in this situation in the future?
- What emotional impact does using physical intervention have on you?
- What was your emotional state at the time of the escalation?

Questions for student
- What was it that you needed?
- What upset you most?
- What did we do that was helpful?
- What did we do that got it that way?
- What can we do better next time?
- Would you do something differently next time?
- What could we have done to make the physical intervention less invasive?

Notes on the discussion that occurs during the debriefing report are not required to be documented, however a note should be made that the debriefing has occurred for both staff and students involved (e.g. names, date, time and outcomes).
Physical Intervention
Staff may make legitimate use of physical intervention if all non-physical interventions have been exhausted and a student is:

- physically assaulting another student or staff member
- posing an immediate danger to him/herself or to others.

Appropriate physical intervention may be used to ensure that Clare State School’s duty of care to protect students and staff from foreseeable risks of injury is met. The use of physical intervention is only considered appropriate where the immediate safety of others is threatened and the strategy is used to prevent injury.

Student name: ______________________ Date: __________

Staff member/s involved in Physical Intervention Incident:

________________________________________________________________________________________________________

________________________________________________________________________________________________________

________________________________________________________________________________________________________

Serious or high risk behaviours exhibited by student:

________________________________________________________________________________________________________

________________________________________________________________________________________________________

________________________________________________________________________________________________________

Actions taken by staff member/s:

________________________________________________________________________________________________________

________________________________________________________________________________________________________

________________________________________________________________________________________________________

Is there an existing Risk Management Plan: ______________________

If yes, describe how was this followed:

________________________________________________________________________________________________________

________________________________________________________________________________________________________

________________________________________________________________________________________________________

Post intervention required:
(debriefing with student, referral, risk management process, debriefing staff member/s)

________________________________________________________________________________________________________

________________________________________________________________________________________________________

________________________________________________________________________________________________________

Signed:
Staff member/s

________________________________________________________________________________________________________

Dated ______

Leadership Team Member ________________________________________________

Any physical intervention made must:
- be reasonable in the particular circumstances
- be in proportion to the circumstances of the incident
- always be the minimum force needed to achieve the desired result.
